

LEADATLANTIC

LeadAtlantic is an evolutionary leadership program for Atlantic agriculture and aquaculture. LEAD will produce leaders committed to creating stronger and more profitable industries, a sustainable and innovative rural economy, and who have the leadership competencies to deliver on that commitment.

The program will take place over four 2-3 day sessions starting January 25th, 2018. The tuition is \$9750+HST and registration is now open, see note on course funding below. For more course detail, [click here](#)

Note on Funding

Dalhousie Faculty of Agriculture, Extended Learning is offering the LEAD Atlantic program. **The Nova Scotia Federation of Agriculture has applied for funding to support the tuition costs of this course to our qualifying* farm members.** We are awaiting the final approval from Department of Labour and Advanced Education, but encourage interested parties to contact NSFA to register.

* If NSFA is successful in funding from [WIPSI](#), your farm business is eligible if:

- Located in Nova Scotia
- Registered with Joint Stocks (there are some farm exemptions)
- 30% of activity is derived directly from the farm business
- Been in operation for at least 1 year
- Has \$25,000 in wages or owners drawings
